

VNS2215

WIRELESS MULTI-COLORED BEACON LIGHT SET Wirelessly Activated Visual Signaling & Alerts

User-Programmable Alert Light Color, Operation Mode, Tone, and Duration

The VNS2215 Wireless Beacon Light is designed to provide high-impact visual alerts for indoor locations.

The VNS2215 Wireless Beacon Light can control one or two LED beacon light fixtures. Each VNS2215 wireless strobe light can be operated individually or as a part of up to seven zones for flexible unit activation from a main base station, personal panic buttons or wireless wall mounted call stations.

The VNS2215 can come with an optional wireless supervision module, that provides full monitoring of the device functionality, for improved site maintenance, system administration and over-the-air programming from a base station or a PC.

VNS2215 KEY FEATURES

FULL LIGHT CONTROL
Change color, brightness, mode, tone and duration

ALERT MODES
Pick steady, slow flash, fast flash, and strobe

LONG LASTING LEDS
No maintenance or bulb replacement needed

EASY ACTIVATION
