

VS637

MAGNETIC MOUNT ANTENNA

Compact Magnetic Radio Frequency Antenna

Increases RF Signal Reception and Transmit Signal Coverage

The VS637 is a compact magnetic mount antenna for medium range wireless applications. The magnetic base is designed to provide easy installation by simply attaching to a metal object or surface, making it ideal for indoor and mobile paging applications.

The VS637 antenna is optimal for indoor single-story radio paging with low power transmitters.

The VS637 antenna's diversity, frequency agility, low visibility, wide bandwidth and low angle radiation pattern makes it superior when compared to traditional gain antennas.

VS638 SPECIFICATIONS

Parameter	Description	Parameter	Description
Color	Black	Pull Strength	> 90 lbs
Dimensions	2.0" x 3.1", 50mm x 80mm (W x H)	Maximum Power	10W
Weight	3.8oz, 108g	Impedance	50 Ohms
Material	Brass magnetic base, ABS plastic antenna	VSWR	< 2.1 Max
Mounting	For optimum coverage, install the antenna on any magnetic metal surface with minimum 2 x 2 area	Frequency Band	450-470 MHz
Wind Survival	125 MPH	Polarization	Vertical
Cable	10' Length, Male BNC Connector	Warranty	One Year Limited Warranty
